PROFESSIONAL EXPERIENCE

Credcore Dec 2023 - Present
Software Engineer

- Led development of internal automation tools, streamlining complex, manual workflows across AI and Domain teams thereby significantly boosting operational efficiency.
- Collaborated closely with founders to design and prototype LLM-powered interactive demos, accelerating product validation cycles leading to successful client acquisitions.
- Maintained and delivered new features for CredCore's primary web application ensuring robust UX.

Chronicle Feb 2022 - August 2023
Software Engineer

- Improved slide creation workflows by implementing forward-slash ('/') and contextual menus thereby enhancing discoverability and ease of block insertion in a slide.
- Partnered with the Design team to drive the end-to-end implementation of icon and video blocks, translating early concepts into polished user-interface components.
- Led development of the "Image Picker", enabling users to seamlessly integrate stock images into slides.

Razorpay May 2019 - July 2019
Product Designer

- Worked on the design and development of an interactive section for Razorpay's website to help their customers better understand their own needs and recommend product solutions to them accordingly.

EDUCATION

Indian Institute of Technology Madras, India 2025 - Present
Bachelor of Science in Electronic Systems *Part-time*

Indian Institute of Technology Roorkee, India 2017 - 2022
Bachelor of Architecture *CGPA: 7.221/10*

RESEARCH EXPERIENCE

Visual Intelligence Lab Oct 2024 - Sept 2025
University of Minnesota *Prof. Zhu-tian Chen*

- Engineered a robust evaluation server for Vis x GenAI workshop challenge in IEEE VIS 2025, enabling secure execution of submitted AI agents in isolated Docker containers and exposing results via a scalable REST API.
- Designed and implemented a research prototype that leveraged LLM-driven autonomous agents to streamline complex data analysis workflows, advancing the exploration of human-AI collaboration.
- Received an offer to pursue CS PhD at the University of Minnesota under Prof. Zhutian Chen, despite no formal background in CS. Couldn't accept the offer due to personal circumstances.

Creativity Lab June 2021 - Nov 2021
UC San Diego *Prof. Haijun Xia*

- Designed a declarative JSON grammar to formally represent atomic data transformations on arrays, enabling precise and sequential algorithm visualization.
- Built a custom JavaScript interpreter using D3.js to render dynamic, step-by-step SVG animations from the grammar thereby empowering CS educators to visually explain array algorithms.

PUBLICATIONS

[**F.2**] Tica Lin, Ruxun Xiang, Gardenia Liu, Divyanshu Tiwari, Chenjiayi Ye., Meng-Chia Chiang, Hanspeter Pfister, Chen Zhu-Tian. **SportsBuddy: Designing and Evaluating an AI-Powered Sports Video Storytelling Tool Through Real-World Deployment**. *Accepted at PacificVis 2025.*

[**E.1**] Divyanshu Tiwari. **Fostering Collaboration and Empathy Through Games**. *Extended Abstracts of the 2020 Annual Symposium on Computer-Human Interaction in Play (CHI PLAY 20 EA).*

VOLUNTEER

IEEE VIS 2025, Vis x GenAI Workshop
Challenge Reviewer

- Served as reviewer for submissions in the Vis x GenAI workshop challenge hosted at IEEE VIS 2025 at Vienna, Austria.

TOOLS

Frontend	React, Next.js, Javascript/Typescript, Tailwind, D3.js, HTML/CSS
Backend	Node.js, REST APIs, GraphQL, FastAPI, Python
Data/Cloud	PostgreSQL, MongoDB, AWS, Netlify, Docker
